Thanks.

Davis, I think you can simply respond back that you have forwarded this on to the city administrator.

Thanks! I've forwarded this to Brittaney and Lisa since they are tracking comments.

Sharleen

You don't often get email from [scottbakertreeundertaker@gmail.com](mailto:scottbakertreeundertaker@gmail.com). [Learn why this is important](#)

Hello Davis,

If you want to talk about the tree I would be happy to chat with you. I helped save that tree when the road was improved in the late 70's. I visit the tree often and my company has looked at it recently.

The consultant report that you have is an embarrassment to any knowledgeable arborist.

By the way...the tree is not dead! It has a full and vigorous canopy.

Please give me a call if you are interested in learning more about tree risk assessment.

Respectfully, Scott
